

JUNE 2022 REVIEW

CASS COUNTY COURT & PRETRIAL SERVICES

“Serving the community by using evidence-based practices and needs-based supervision that prioritizes public safety, maximizes court appearance and reduces recidivism, while protecting the presumption of innocence.”

CURRENT OVERVIEW:

Cass County Court & Pretrial Services continues to see increased growth, illustrated by a 17% increase in clients served in the past year. As of the date of this report, CCCPS has served 134 clients in 2022, 72% of the total population served in 2021. We also are excited to announce that we enrolled our 350th client in May and expect to enroll our 375th client this week.

Currently, Pretrial Services has 64 active clients, 68 cases, and we served a total of 60 clients in May for a total number of 1,535 days. Our current caseload is 48% felony charged, while 13% of clients are being supervised with the special condition of electronic monitoring. 43 arrestee evaluations and recommendations, with IRAS-PATs, were completed in the past month, a 72% increase and we had 25 new intakes, a 67% increase. CCCPS had 4 clients successfully complete the program.

Using the \$40 daily per diem used to house an inmate outside the jail, Pretrial Services is currently diverting \$2,560 daily in county incarceration expenses. As noted previously, we served 63 clients (64 cases) for a total of 1,570 days in May, for an estimated monthly cost savings of \$61,400. Cass County Court & Pretrial Services has already diverted over \$400,000 in incarceration expenses this year.

JAIL EXPANSION:

This past month, the long awaited Jail Expansion Project was completed. As of June 1, 2022, inmates were transferred to the new side. The Cass County Jail is now a 384 bed facility, but it is noted that any population over 307 inmates is considered overcapacity per IDOC

standards. Currently, with expansion, the jail is at 77% capacity. It is estimated that without Pretrial Services the jail would already be at 91% capacity with the new expansion, proving the continued need for and relevancy of the program in relation to maintaining the jail population.

Monthly Clients Served 12 Month Trend Analysis

POPULATION ANALYSIS:

Offense Level & Case Type	Total
Misdemeanors	33
Level 6 Felonies	21
High Level Felonies	10
Courtesy Transfers	2
Probation Violations	2
Mental Health Adjudications	0
Special Conditions of Bond	6

- Misdemeanors

JAIL ANALYSIS:

The June Jail Analysis showed that 17% of inmates are classified as Pre-Adjudication/Pretrial. 55% of the population classified as pre-adjudication have an out-of-county warrant that excludes them from the pretrial release program. We continue to see an increase in arrestees that identify as High Risk on the IRAS-PAT, that have multiple cases resulting in bond revocations or out-of-county warrants, with 34% of inmates with pending causes having multiple cases. To further maximize release without jeopardizing public safety, CCCPS now evaluates this population at the request of the court.

PERFORMANCE METRICS:

All our performance metrics have remained stable and fall above or within State Standards.

Appearance Rate:
percentage of defendants who attended all court hearings during their pretrial period

Safety Rate:
the percentage of defendants who were not charged with a new offense during their pretrial period

Success Rate:
the percentage of defendants who have not received a violation, FTA, or new offense while under supervision

Violation Rate:
the percentage of defendants who received a violation; pending violations are included in calculations

COURT SERVICES & JRAC:

The Cass County JRAC Council will resume meeting in June to begin work on our system goals and community supervision metrics. Juvenile Probation has successfully taken the necessary steps to begin reporting their performance metrics soon. We are also gratefully excited to announce we were awarded an additional \$42,562.47 from IOCS to install 5 interactive smart screen kiosks as part of the Court Technology Grant. We hope to have the project completed within the next 6-8 weeks. Installation of the new emergency duress system & expansion of surveillance cameras funded via the Court Reform Security Grant is close to completion.

Voluntary Program Participation Rate:
the percentage of clients participating in voluntary programming and services

- High
- Low
- Moderate

RISK & OFFENSE TYPE ANALYSIS :

Risk Analysis:

Trends show that 5% of active clients have been identified through the IRAS-PAT as High Risk, 56% as Moderate Risk, and 39% as Low Risk.

- Alcohol & Drug
- Traffic
- Person
- Property
- Weapons
- Public Health
- Other

Offense Type Analysis:

Analysis shows that 27% of offenses are drug and alcohol related, 25% are traffic offenses, 20% are crimes against persons, 8% property related, 0% weapon related, 9% public health and admin., and 11% fall into the other category

Supervision Analysis:

- 33% of active participants are being supervised at Level 3 (High) Supervision, with weekly reporting.
- 19% of active clients have needs where supervised release was in the best interest of the county and the clients, including several clients with chronic illnesses/intellectual disabilities and one terminal illness.
- 8 clients are being supervised with electronic monitoring facilitated by Cass/Pulaski Community Corrections.
