

DECEMBER 2025 REVIEW

CASS COUNTY COURT & PRETRIAL SERVICES

"Serving the community by using evidence-based practices and needs-based supervision that prioritizes public safety, maximizes court appearance and reduces recidivism, while protecting the presumption of innocence."

2025 ANNUAL REPORT PREVIEW:

Pretrial Services closed out 2025 with exceptional growth and measurable success, serving 381 clients—an 8% increase over 2024 and an impressive 180% increase over the past six years. The program secured 92 inpatient treatment beds, marking a 20% increase, and generated 111 peer referrals, a 247% rise. In addition, 206 clients engaged in counseling services through our therapeutic services division, representing a remarkable 62% increase. These gains translated into meaningful outcomes, including a 20% increase in successful program completions and a 15% reduction in unsuccessful terminations—clear validation of the program's success-based coaching model. Collectively, these achievements resulted in an estimated \$1,686,360 in cost savings for 2025 and 116 years in jail bed stays diverted. In the past six years, the program has generated over \$7.5 million in grant funding.

CURRENT OVERVIEW:

In November, Pretrial Services served a total of 134 clients for 8.9 years in jail bed stays. The program currently has 95 active clients, with a November average daily population of 109. It is noted that the slight population decrease correlates to an increase in high-risk arrestees that are not appropriate for release to ensure public safety. There were 24 new clients added to the program. Currently, we have an 86% Release Rate. 27 clients successfully completed the program.

JAIL ANALYSIS:

The December Jail Analysis showed that 13% of inmates are classified as Pre-Adjudication. The Cass County Jail population is 155 inmates: 115 Cass County, 29 Howard County, 11 IDOC. Currently, the jail is at 50% capacity. It

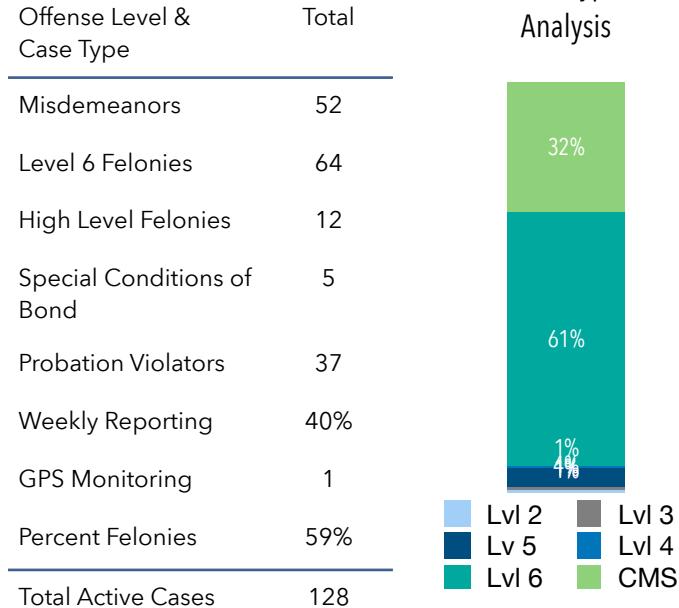

is estimated that without Pretrial Services the jail would be at 81% capacity. The low risk population is 5%, with 57% identified as high risk, illustrating the reservation of jail resources for high risk inmates.

COST SAVINGS:

CCCPs has diverted an estimated \$3,800 per day in incarceration expenses, resulting in a reported cost savings of \$130,120 for November. Due to this reservation of jail resources, the CCJ can now house inmates from other facilities, generating an additional \$43,760 in revenue in December.
