REDEFINING PRETRIAL SUPERVISION RESEARCH STUDY

Hartoin

Director Hartoin is excited to announce that IOCS has funded the Redefining Pretrial Supervision Study that is based on Cass County's Pretrial Supervision Model that includes structured appointments and voluntary support services integration. We have partnered with George Mason University and have so far, 10 counties signed up for our multi-site, randomized controlled trial of this model.

Court Services Director, Hillary Hartoin, submitted the CY25 IOCS JPAR SIM Grant last week and is seeking to increase funding and services covered under the grant umbrella. Funding is designated for CPCC's therapeutic division, with additional funding awarded for competency evaluations for the Courts and EBP curriculum. Court Services has also been working with a new provider to expand programming offered at CPCC to include both a Men's & Women's DBT Group and a Men's Trauma Group.

Judge Swaim and Director Hartoin have been working on a proposed unified definition of recidivism outlined below. Discussion to take place.

RECIDIVISM RATE

The percentage of defendants who complete community supervision and who are not charged with a new criminal offense one (1), three (3) and five (5) years after completion of supervision.

COMMENTARY: The recidivism rate measures defendants who have not been arrested and charged OR summoned and charged with a new criminal offense (misdemeanor or felony). Thus, those who have been summoned to court for a new offense should also be included along with information learned about charges in other jurisdictions.

TYPE OF MEASURE: Case-related; measured at the end of community supervision period. While unified definition, each community supervision agency would calculate their own recidivism rate.

DISCUSSION ITEMS: Failed Diversions; Dismissals pursuant to plea; Violations of Community Supervision (Already reported in agency's violation rate.)
